

Automotive wiring harness sealing plug

Automotive wiring harness sealing plug

- 1. Material: plastic
- 2. Features: anti-aging, environmental protection, high and low temperature resistance
- 3. Purpose: The hole position of the wire harness connector is sealed, which has the functions of dustproof, waterproof and oilproof
- 4. Application scenario: automotive industry

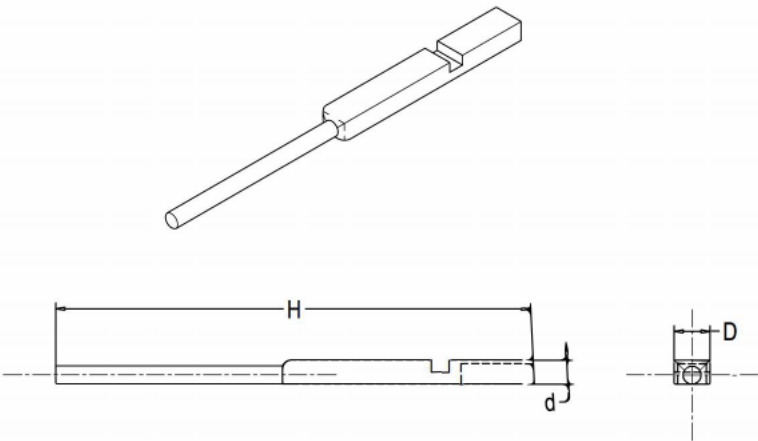

Automotive wiring harness sealing plug

Specification

RCCN Seal plug
RoHS

Product model	Thickness (d) mm	Width (D) mm	Height (H) mm	Colour	Smallest packaging
1394871-1	1.75	2.1	34.4	black	1000
1394872-1	2.3	2.8	35.1	White	1000

Description:
 Product material: plastic
 Range of application: Harness connector hole sealing
 performance characteristics: waterproof, high and low temperature resistance, aging resistance
